## MARK SCHEME for the October/November 2009 question paper

## for the guidance of teachers

## 0610 BIOLOGY

0610/05

Paper 5 (Practical test), maximum raw mark 40

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes must be read in conjunction with the question papers and the report on the examination.

• CIE will not enter into discussions or correspondence in connection with these mark schemes.

CIE is publishing the mark schemes for the October/November 2009 question papers for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level syllabuses and some Ordinary Level syllabuses.

UNIVERSITY of CAMBRIDGE International Examinations

## **General notes**

Symbols used in mark scheme and guidance notes.

- / separates alternatives for a marking point
- ; separates points for the award of a mark
- A accept as a correct response
- R reject this is marked with a cross and any following correct statements do not gain any marks
- I ignore/irrelevant/inadequate this response gains no mark, but any following correct answers can gain marks.
- () the word/phrase in brackets is not required to gain marks but sets context of response for credit. e.g. (waxy) cuticle. Waxy not needed but if it was described as a cellulose cuticle then no mark.
- <u>Small</u> underlined words this word only/must be spelled correctly
- ref./refs. answer makes appropriate reference to
- AVP additional valid point (e.g. in additional guidance)

C	Questi	on	Expected Answers		Additional Guidance	
1	(a)	(i)	table construction; neat with ruled lines <b>and</b> 2 or 5 columns and <u>headings</u> (depending on orientation) <b>and</b> 2 or 5 rows and <u>headings</u> (depending on orientation)	[1]	Ignore number / letter of test tube Ignore time (same time for each pH, max 2 minutes) as a column / row R awarded if time stated is different for each pH	
		(ii)	result recorded for pH3 ;	[1]	Must be > 0 (unless 0 on supervisor's report)	
		(iii)	result recorded for pH4; result recorded for pH5; result recorded for pH7; result recorded for pH8;	[4]	Each result must be > 0 (unless 0 on supervisor's report)	
	(b)	(i)	axes orientated correctly <b>and</b> informative labels;		pH on <i>x</i> axis no. of bubbles on <i>y</i> axis	
			axes scaled appropriately;		each axis scaled in even increments, including start point scaled to cover 2 / 3 of the grid in at least 1 direction	
			points plotted correctly;		all points correct (from their data) allow correctly plotted bars for this point	
			line;	[4]	smooth curve / ruled line, passing through plotted points	
		(ii)	increase then a decrease / description of their results; <u>optimum</u> pH value stated (from graph); comparative figs in support; AVP;	[2 max]	2 x and, 2 y values / y values manipulated e.g. ref. to denaturing when little activity

	IGCSE – October/November 2009		05

Q	uestio	Expected Answers		Additional Guidance	
2	(a)	<b>Drawing</b> large size and accurate proportions; clear lines and no shading;		should resemble what it is meant to be	
		<b>Labels</b> [label lines to touch structure(s)] stamen(s) / anther <b>and</b> filament;		stamen label line should indicate anther and filament if not separately labelled	
		stigma; style; petal(s);			
		sepal(s);	[6 max]		
	(b)	<b>Drawing</b> large size and accurate proportions; clear lines and no shading;		should resemble what it is meant to be	
		Labels [label lines to touch structure(s)] placenta / central support; fruit wall / pericarp / ovary wall;			
		(developing) seed(s);	[4 max]		
	(c)	Annotations anther, exposed / outside bracts / outside petals / large / long / articulated; filament(s), long / flexible; stigma, feathery / exposed / large / hairy;		Ignore stamen	
		no petals / small petals;	[3 max]		
	(d)	<ul> <li>(i) stamens / anthers (to produce pollen);</li> <li>stigma (to collect pollen);</li> </ul>	[1 max]	Ignore qualification Ignore qualification
