October/November 2018

MARK SCHEME

Maximum Mark: 60

Published

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge International will not enter into discussions about these mark schemes.

Cambridge International is publishing the mark schemes for the October/November 2018 series for most Cambridge IGCSE™, Cambridge International A and AS Level components and some Cambridge O Level components.

This syllabus is approved for use in England, Wales and Northern Ireland as a Cambridge International Level 1/Level 2 Certificate.

This document consists of **90** printed pages.

PUBLISHED**Generic Marking Principles**

These general marking principles must be applied by all examiners when marking candidate answers. They should be applied alongside the specific content of the mark scheme or generic level descriptors for a question. Each question paper and mark scheme will also comply with these marking principles.

GENERIC MARKING PRINCIPLE 1:

Marks must be awarded in line with:

- the specific content of the mark scheme or the generic level descriptors for the question
- the specific skills defined in the mark scheme or in the generic level descriptors for the question
- the standard of response required by a candidate as exemplified by the standardisation scripts.

GENERIC MARKING PRINCIPLE 2:

Marks awarded are always **whole marks** (not half marks, or other fractions).

GENERIC MARKING PRINCIPLE 3:

Marks must be awarded **positively**:

- marks are awarded for correct/valid answers, as defined in the mark scheme. However, credit is given for valid answers which go beyond the scope of the syllabus and mark scheme, referring to your Team Leader as appropriate
- marks are awarded when candidates clearly demonstrate what they know and can do
- marks are not deducted for errors
- marks are not deducted for omissions
- answers should only be judged on the quality of spelling, punctuation and grammar when these features are specifically assessed by the question as indicated by the mark scheme. The meaning, however, should be unambiguous.

GENERIC MARKING PRINCIPLE 4:

Rules must be applied consistently e.g. in situations where candidates have not followed instructions or in the application of generic level descriptors.

GENERIC MARKING PRINCIPLE 5:

Marks should be awarded using the full range of marks defined in the mark scheme for the question (however; the use of the full mark range may be limited according to the quality of the candidate responses seen).

GENERIC MARKING PRINCIPLE 6:

Marks awarded are based solely on the requirements as defined in the mark scheme. Marks should not be awarded with grade thresholds or grade descriptors in mind.

Applying the Mark Scheme

- When marking a response the overall criteria to be considered should be - ‘How good is this response to this question?’
- The ‘Level Descriptor’ should be used to decide the Level into which the quality of the answer fits.
- Exhaustive lists of possible facts are not given in the mark scheme, as there is often a choice of factual knowledge that candidates may use.
- **WHERE EXAMPLES OF RESPONSES ARE GIVEN, THESE ARE NOT PRESCRIPTIVE, BUT ARE INTENDED AS A GUIDE.** It is not possible to cover every possible type of response within a levels of response mark scheme and examiners are expected to use their professional judgement at all times in ensuring that responses are placed in the correct levels and given an appropriate mark within that level.
- Marking must be positive. Marks must not be deducted for inaccurate or irrelevant parts of answers. In itself, poor use of historical terminology, spelling, grammar or handwriting does not affect the mark. The overall quality of the answer to the question should be judged.
- If a candidate reaches a particular level s/he must be rewarded with a mark within that level. It is not necessary to work through the levels.
- The full range of marks should be used. Do not be afraid to award full marks or no marks. Failure to do this will seriously affect the distribution of marks. Be prepared to reward candidates who show any level of understanding. The mark scheme starts from a basic acceptable response. Where a band of marks is indicated for a level these marks should be used with reference to the development of the answer within that level.

Austria was dealing with revolutions in Hungary and Italy and was in disarray. Prussia had missed the chance to be the dominant force in Germany.’</p> <p>Level 2 Identifies AND/OR describes reasons 2–3</p> <p>(One mark for each identification/description)</p> <p>e.g. ‘The Frankfurt Parliament missed the opportunity to fill the power vacuum in Germany in 1848.’ ‘The authority of the Frankfurt Parliament was not fully recognised by many individual states.’ ‘The Frankfurt Parliament wasted time debating fundamental rights and privileges.’ ‘Frederick William of Prussia rejected the offer of the new Imperial German crown.’ ‘The Austrian army was superior to the Prussian army.’ ‘The ruler of Hesse-Cassel appealed to Austria for help when he was overthrown.’</p> <p>Level 1 General answer lacking specific contextual knowledge 1</p> <p>e.g. ‘Austria was more powerful than Prussia.’</p> <p>Level 0 No evidence submitted or response does not address the question 0</p>	6

1(c)	<p>'The aims of the 1848–49 revolutionaries across Europe were more similar than they were different.' How far do you agree with this statement? Explain your answer.</p> <p>Level 5 Explains with evaluation of 'how far' 10</p> <p>As Level 4 plus evaluation.</p> <p>Level 4 Explanation of both sides 7–9</p> <p>A L4 answer will have a minimum of three explanations (2 on one side; 1 on the other). This will be worth a mark of 7. Fuller explanation of one issue to be given two marks. An answer which only has one explanation on one side of the argument cannot be awarded more than 8.</p> <p>Level 3 One-sided explanation OR one explanation of both sides 5-6 marks 4–6</p> <p>More detailed explanation of one issue to be given two marks.</p> <p>e.g. 'The aims of revolutionaries in Germany and Italy were similar, as both wanted to unify states in their respective countries to form one nation. In Germany there was growing middle class support for the idea of a new liberal and unified Germany with a German parliament. Similarly, in Italy liberal middle class revolutionaries hoped to achieve a united Italy ruled by Italians, with Austria being driven out of Italy forever.'</p> <p>OR</p> <p>'The aims of the revolutionaries were not always similar. In Hungary revolutionaries disagreed about what they wanted. Kossuth was a liberal Magyar who demanded independence for Hungary from Austria. However, he told the Croats and other minority groups in Hungary that they would not be granted independence from Hungary, nor would they be granted the right to self-government. The Croats did not agree; their aims saw a future independent from Hungary.'</p>	10

No-one was entirely happy with the Compromise. The South felt that they were obliged to make too many territorial concessions, as none of the new states were slave states. California was admitted to the Union as a free state, and Mexico and Utah were accepted as US territories with no pre-agreed slave status. The South was not happy about this.'</p> <p>OR</p> <p>'The Fugitive Slave Law caused disagreement between North and South. The South agreed with this law, as it upheld the rights of slave owners and meant that escaping slaves had to be returned to their owners. This left anti-slavery citizens in the North in a very difficult position, as the law made them and their institutions responsible for enforcing slavery. They felt they had an almost impossible choice – they either had to break the law or go against their own consciences. The law made the North more determined to get rid of slavery.'</p>	10

The Kaiser did not want France to extend her empire in North Africa and so he decided he would interfere in Morocco. He gave a speech in Tangiers, saying that Morocco should remain independent of France. France was furious. Further tension arose when the Kaiser was humiliated at the Algeciras conference; he blamed Britain for supporting France over Morocco.’ (5 marks)</p> <p>OR</p> <p>‘The Alliance System greatly increased tension between the Great Powers. The Alliance System meant that Germany felt encircled by the Triple Entente, and became convinced that the Entente posed a real threat to German security, with France on her western border and Russia on her eastern border. All this meant Austria was on the verge of economic collapse and in 1922 had to receive help from the League of Nations.’</p> <p>OR</p> <p>‘Germany suffered most from the peace settlement. 6(b)	<p>Why was the absence of the USA significant for the League in the 1930s?</p> <p>Level 4 Explains TWO reasons 6</p> <p>Level 3 Explains ONE reason 4–5</p> <p>(Four marks for one explanation, five marks for full explanation)</p> <p>e.g. ‘The absence of the USA was significant for the League because it made it more difficult for the League to deal with aggressive nations. When Japan invaded Manchuria, the League discussed imposing economic sanctions on Japan, but the absence of the USA meant they did not do this. Economic sanctions would have been meaningless as Japan would still be able to trade with her main trading partner, the USA. In addition, economic sanctions would have meant European countries cutting back their trade in the Far East, and leaving the way open for the USA to take over this trade.
